### STAFF RECOMMENDATION

It is recommended that the Board of Commissioners approve the General Manager to execute an on-call contract for SCADA, PLCs and Industrial Networks services not to exceed \$55,000.00 for public project services to the selected contractor(s) listed below upon review and approval by legal counsel.

### PREVIOUS ACTION(S)

None

### **BACKGROUND INFORMATION**

In the past few years, VVWRA MIS staff was reduced to one technician, and as a result, SCADA contractors were retained to provide the following automation services on an as-needed basis:

- Programmable Logic Controller (PLC), Remote Terminal Unit (RTU) and Human Machine Interface (HMI) programming and design.
- Recommend and implement software changes and/or updates.
- Troubleshoot, repair, and improve electrical control systems, instrumentation equipment, communication problems, and software to ensure system functionality.
- Design assistance and recommendations for current and future SCADA/electrical projects.
- Security updates and audits as needed or requested.
- SCADA system functionality upgrades.
- Read, decipher, and design plans for current equipment and new projects in both Hardware and Software.
- Create new or modify existing HMI screens.

- Guidance and recommendations with software and hardware upgrades.
- Assist in creating a written PLC and SCADA programming standard to be used as a VVWRA standard for all future projects and when redesigning the existing system.
- Full system assessment.
- Perform general preventive maintenance at remote sites as requested.
- New project integration.
- Reprogram existing remote sites to new VVWRA SCADA Standard as required
- Communications and network support, repair and installation.
- Provide training for VVWRA staff on any new software, equipment, or changes to the SCADA system.
- Other SCADA related tasks requested by VVWRA.

Due to the increasing difficulties to obtain timely competitive bids from SCADA contractors, this contract for on call or as needed SCADA services not to exceed \$55,000.00 will improve staff's ability to respond to situations requiring SCADA work and to complete larger and more specialized Automation projects.

Under Section IX, Paragraph A & B of VVWRA procurement policy, staff compiled a list of SCADA contractors with a proven track record with VVWRA based on the following criteria: Any SCADA contractor on the list can:

- Provide faster response time to SCADA emergencies
- Help with large projects
- Provide competitive rates for both time and material
- Have familiarity with VVWRA SCADA, PLCs & Industrial Networks assets
- Bring increased productivity to a project
- Hold industry certifications and meet all current licensing and registration requirements.

When the need arises, VVWRA staff will determine which contractor to call based on their responsiveness, availability, proposed costs, and past performance.

### **List of SCADA contractors:**

| Contractor     | Address                              | Phone number   |
|----------------|--------------------------------------|----------------|
| Trimax Systems | 565 Explorer Street, Brea, CA 92821  | (714) 255-8590 |
| Vertech        | 16 Technology Dr. Ste 118 Irvine, CA | (949) 596-7986 |

Once this on-call or as-needed contract reaches the \$55,000 threshold, it will be terminated without accruing any further costs in excess of the \$55,000 threshold. VVWRA staff will come back to the board to renew the on-call or as-needed contract according to VVWRA procurement policy.

At this time, staff is requesting that the Board of Commissioners approve the General Manager to execute an on-call contract for SCADA services not to exceed \$55,000.00 for public project services to the selected contractor(s) listed above upon review and approval by legal counsel..

Financial and Cash Reports

October 2020

### **Executive Summary of Financial Statements**

### For the Month Ended October 31, 2020

1. Cash balance at October 31, 2020 is \$11.09 million with reserves required for operations. The agreements with State Water Resources Control Board require we maintain the loan principal and interest payment amount for the following year.

|  | Ci | irrent Balance |

| Total Cash   | \$ | 11,091,413     |

- 2. Settlement: During October 2020, we have recorded the entire \$2.20 million as the settlement receivable with \$24,859 discount interest expense to reflect a present value of \$2.18 million.
- 3. The October 2020 financial statements show a surplus of \$1,987,393 (a cumulative year-to-date surplus of \$105,983) to reflect the settlement revenue after \$1.02 million (cumulative \$4.07 million) depreciation expense. The depreciation expense is a part of financial statements but does not affect our cash flow.
- 4. The current month user fee revenue is higher than a budgeted monthly average amount by \$59,660. However, the connection fee revenue during the current month is lower than a budgeted average monthly amount by \$50,611. The expenses are what the staff processed during the month that may not match corresponding revenues. The staff will record matching expenses at a year-end by accruing incurred costs.
