CLOSED SESSION: During the course of conducting the business set forth on this agenda as a regular meeting of the Board, the Chair may convene the Board in closed session to consider matters of pending real estate negotiations, pending or potential litigation, or personnel matters, pursuant to Government Code Sections 54956.8, 54956.9, 54957 or 54957.6, as noted. Reports relating to (a) purchase and sale of real property; (b) matters of pending or potential litigation; or (c) employment actions, or which are exempt from public disclosure under the California Public Records Act, may be reviewed by the Board during a permitted closed session and are not available for public inspection. At such time the Board takes final action on any of these subjects, the minutes will reflect all required disclosures of information. Closed Session is scheduled to commence at 7:30 a.m.. If the matters discussed in closed session require additional time beyond 8:00 a.m., in deference to the public, the Board may continue the Closed Session discussion after Open Session is concluded. In that case, Closed Session will resume after the Commissioners Comments section and any reportable action will be reported after the continued Closed Session has concluded and before adiournment.

Closed Session

- <u>Item 1.</u> (Gov. Code Sec. 54954.5-54956.9(d))- Flow Diversion

Consent Calendar

Cox

All matters placed on the Consent Calendar are considered as not requiring discussion or further explanation and unless any particular item is requested to be removed from the Consent Calendar by a Commissioner, staff member or member of the public in attendance, there will be no separate discussion of these items. All items on the Consent Calendar will be enacted by one action approving all motions, and casting a unanimous ballot for resolutions included on the consent calendar. All items removed from the Consent Calendar shall be considered in the regular order of business.

Item 6. Receive, Approve and File Minutes

Poulsen

- Regular Board Meeting 07/16/20

Adjournment Cox

The board will adjourn to a regular board meeting on September 17, 2020 at 7:30 a.m.

Laari

American Disabilities Act Compliance Statement

Government Code Section 54954.2(a)

Any request for disability-related modifications or accommodations (including auxiliary aids or services) sought to participate in the above public meeting should be directed to the VVWRA's Secretary at (760) 246-8638 at least 72 hours prior to the scheduled meeting. Requests must specify the nature of the disability and the type of accommodation requested.

Agenda posting

Government Code Section 54954.2

This agenda has been posted in the main lobby of the Authority's Administrative offices not less than 72 hours prior to the meeting date and time above. All written materials relating to each agenda item are available for public inspection in the office of the Board Secretary.

Agenda items received after posting

Government Code Section 54957.5

Materials related to an item on this agenda submitted after distribution of the agenda packet are available for public review at the VVWRA office located at, 20111 Shay Road, Victorville CA 92394. The materials will also be posted on the VVWRA website at www.vvwra.com.

Items Not Posted

Government Code Section 54954.2(b)

In the event any matter not listed on this agenda is proposed to be submitted to the Board for discussion and/or action, it will be done as an emergency item or because there is a need to take immediate action, which came to the attention of the Board subsequent to the posting of the agenda, or as set forth on a supplemental agenda posted in the manner as above, not less than 72 hours prior to the meeting date.

Items Continued

Government Section 54954.2(b)(3)

Items may be continued from this meeting without further notice to a Committee or Board meeting held within five (5) days of this meeting

Meeting Adjournment

This meeting may be adjourned to a later time and items of business from this agenda may be considered at the later meeting by Order of Adjournment and Notice

VVWRA's Board Meeting packets and agendas are available for review on its website at www.vvwra.com. The website is updated on Friday preceding any regularly scheduled board meeting.

WWWR A Roard of Commissioners

STAFF RECOMMENDATION

It is recommended that the Board of Commissioners approve Resolution No. 2020-09 to amend the Surplus Property List and authorize the General Manager to approve the disposition of surplus equipment that no longer has any present or prospective use.

PREVIOUS ACTION(S)

Update from previous surplus property resolution no: 2019-05

BACKGROUND INFORMATION

VVWRA is currently in possession of equipment that is categorized as surplus property. In Resolution 2020-09 (Exhibit 1) Pursuant to Resolution No. 2006-10 (Exhibit A), staff would like to begin the surplusing of the property listed in Resolution 2020-09 (Exhibit B). The majority of the said property is to be disposed of or sold as unserviceable junk or scrap. The equipment that is still functional will be disposed of under the policy and procedures regarding the disposal of surplus personal property as outlined in resolution 2006-10.

Attachment(s):

Exhibit 1 – Resolution 2020-09

EXHIBIT 1

RESOLUTION NO. 2020-09

RESOLUTION TO AMEND LIST OF SURPLUS EQUIPMENT ESTABLISHED UNDER RESOLUTION 2006-10 (RESOLUTION ESTABLISHING POLICY AND PROCEDURES FOR DISPOSING OF SURPLUS PROPERTY, DECLARING ITEMS OF VICTOR VALLEY WASTEWATER RECLAMATION AUTHORITY TO BE SURPLUS PROPERTY AND AUTHORIZING THE SALE AND DISPOSITION THEREOF)

WHEREAS, the Board of Commissioners of the Victor Valley Wastewater Reclamation Authority [Authority] has deemed that it is in the best interest of VVWRA constituents to dispose of certain items of personal property and equipment [Property] as surplus property pursuant to Government Code Section 37350; and

WHEREAS, the Authority is empowered, pursuant to Government Code Section 37350, to dispose of said items of property when, in its discretion, it finds that said property is no longer required for purposes of the Authority; and

WHEREAS, the Authority adopted Resolution 2006-10 on July 18, 2006 establishing Policy and Procedures as the preferred policies and procedures for the disposal of such surplus property; and

WHEREAS, the Authority has determined that the General Manager may declare any personal property as surplus and that such declaration shall be made in writing, the equipment and materials listed in Exhibit B, which is attached hereto and incorporated herein by this reference, shall be disposed of as surplus property as contemplated in the Policy.

WHEREAS, the Authority has identified, and the General Manager has declared further personal property as surplus to be disposed of; and

WHEREAS, the Authority desires to designate income derived from surplus miscellaneous metals recycling to offset costs associated with employee events.

NOW THEREFORE, BE IT RESOLVED that all items listed in Exhibit B shall be declared as surplus property, pursuant to the provisions of Government Code Section 37350, and that the Policy and Procedures attached hereto in Exhibit A shall be followed in order to dispose of said surplus property.

APPROVED AND AMENDED at a regular meeting of the Board of Commissioners of Victor Valley Wastewater Reclamation Authority on this 20th day of August 2020.

Jim Cox, Chair VVWRA Board of Commissioners

ATTEST:	APPROVED AS TO FORM:
Robert Lovingood, Secretary VVWRA Board of Commissioners	Piero Dallarda of Best Best & Krieger LLP General Counsel, VVWRA
CERTIFICATION:	
I do hereby certify that the foregoing is a full, regularly adopted at a meeting of the Board of C	true, and correct copy of a resolution duly and commissioners held on August 20, 2020.
Kristi Casteel – Clerk of the Board	

EXHIBIT A

Resolution 2020-09

RESOLUTION NO. 2006-10

RESOLUTION ESTABLISHING POLICY AND PROCEDURES FOR DISPOSING OF SURPLUS PROPERTY, DECLARING ITEMS OF VICTOR VALLEY WASTEWATER RECLAMATION AUTHORITY TO BE SURPLUS PROPERTY AND AUTHORIZING THE SALE AND DISPOSITION THEREOF

WHEREAS, the Board of Commissioners of the Victor Valley Wastewater Reclamation Authority [Authority] has deemed that it is in the best interest of VVWRA's constituents to dispose of certain items of personal property and equipment [Property] as surplus property pursuant to Government Code Section 37350;

WHEREAS, the Authority is empowered, pursuant to Government Code Section 37350, to dispose of said items of property when, in its discretion, it finds that said property is no longer required for purposes of the Authority;

WHEREAS, the Authority has determined that the Policy and Procedures attached hereto as Exhibit A and incorporated herein by this reference, are the preferred policies and procedures to dispose of such surplus property; and,

WHEREAS, the Authority has determined that, at this particular time, the equipment and materials listed in Exhibit B, which is attached hereto and incorporated herein by this reference, shall be disposed as surplus property as contemplated in the policy,

THEREFORE, BE IT RESOLVED that, pursuant to the provisions of Government Code Section 37350, the Board of Commissioners of the Victor Valley Wastewater Reclamation Authority adopts the Policy and Procedures attached hereto as Exhibit A as the policies and procedures that VVWRA shall follow in order to dispose of surplus property.

ADOPTED at a regular meeting of the Board of Commissioners of Victor Valley Wastewater Reclamation Authority on this 18th day of July 2006.

Ed Pack, Chair

VVWRA Board of Commissioners

Exhibit A

VICTOR VALLEY WASTEWATER RECLAMATION AUTHORITY

POLICY AND PROCEDURES RE DISPOSAL OF SURPLUS PERSONAL PROPERTY

Designation of surplus personal property.

any department able to make best use of such property. If, however, no supervisor or manager declare any personal property as surplus. The declaration shall be in voting, and the property circulated at least once, then the property shall be finally deemed surplus and having no further makes request for the use of such property in his department after the inventory has been may so request from the General Manager who shall have the authority to assign the property to shall be delivered to the General Manager by those employees of VVWRA that have costody and public use or benefit. If any supervisor or manager of any department at VVWRA has use of the property, he or she control over it. The General Manager shall store the property and maintain a written inventory. General Manager may, after consultation with the appropriate personnel at VVWRA,

Sale by sealed bid or anction of surplus personal property.

sell surplus personal property by means of sealed bid or public auction. The provedure for conducting such sale shall be determined by the General Manager, providing, however, that the personal property is five thousand dollars or more, and may, in the sale of all other personal property where, in his or her discretion, he or she determines it in the best interest of VVWRA, be posted in three public places in the VVWRA service area, containing a general description of the type of property to be sold and the time and place of such bid opening or anction; (2) That the the common and customary method and rate for such auctioneering services. allow a flat fee, hourly fee, or a percentage of the amount of the sale, based upon that which is General Manager may contract with a professional auctioneer, and his or her fee may either responsible bidder; (4) That a receipt be given to the purchaser. In conducting an auction, the terms of all sales shall be each; (3) The sale by scaled bid or auction shall be to the highest The General Manager shall, in all cases where the estimated value of the particular item of auction as long as VIVWRA's General Manager concurs on the location. be conducted at the most convenient business location to the person or entity conducting the following are included in such procedure: (1) At least one notice, three days before the sale, shall

Saje in open market of surplus personal property.

shall make an investigation of the market conditions of personal property of the type declared surplus and determine prices for all surplus property which, in his or her opinion, will be dollars, the surplus property may be disposed of in the following manner: The General Manager had more than one day; the place where the articles may be examined; the place where the shall set forth the day and time it shall begin; the number of days it is to be continued if it is to public places within VVWRA's service area, at least three days before the sale, which notice bring the greatest number of potential purchasers. A notice of the sale shall be posted in three market prices by advertising in the most appropriate means which, in his or her opinion, will competitive with prices in the open market. He or she may then sell the personal property at If the surplus property is in usable condition and its estimated value is less than five thousand

Exhibit A

purchase price is to be paid and the property delivered; and a general description of the type of property being sold. The terms of all such sales shall be cash in the amount of the full purchase price. The General Manager or his or her authorized representative shall give a receipt to the purchaser of such property and keep a copy for the files. No sale may be made under this section to any employee. As an alternate to the procedure in this section, the General Manager may dispose of the property by contracting with a professional auctioneer, and his or her fee may either allow a flat fee, hourly fee, or a percentage of the amount of the sale, based upon that which is the common and customary method and rate for such auctioneering services. The auction may be conducted at the most convenient business location to the person or entity conducting the auction as long as VVWRA's General Manager concurs on the location.

Trade-in surplus personal property.

Notwithstanding any provisions of this article for the sale of surplus personal property in the open market or any auction, the General Manager may trade in surplus personal property with an amount he or she determines to be reasonable, to be allowed toward the purchase of a similar type of personal property. Typical situations where this might apply might be in the disposal of used motor vehicles and other machinery and equipment for which trade-ins are commonly permitted by the manufacturer.

Sale of unserviceable junk or scrap personal property.

When any surplus property is deemed to be unserviceable, junk or scrap, no longer suitable for its original purpose, the General Manager shall dispose of such personal property by destruction, trade or sale of said personal property at the best competitive price available in the open market without regards to the other provisions of this article.

Conveying surplus personal property to charitable, nonprofit organizations.

Notwithstanding the other provisions of this article, the Board of Commissioners may convey to a charitable nonprofit organization or a school district any surplus personal property upon receiving reasonable assurances that the property (or the proceeds therefrom) will be used for the benefit of educational, scientific, or charitable purposes, or for community matters such as recreation, education, aid to the destitute, city beautification, or any other activity in which the city government may legitimately participate. The maximum estimated value for said personal property shall not exceed five thousand dollars.

Conveying surplus personal property to other public agencies.

Notwithstanding the other provisions of this article, the Board of Commissioners may convey or sell without recourse to sealed bid or auction surplus personal property to other public agencies including cities, counties, school districts, special districts and joint powers agencies as may be determined by the Board.

VICTOR VALLEY WASTEWATER RECLAMATION AUTHORITY Board of Commissioners Staff Report

TO:		VVWRA	Board of Commission	ners	
FROM:		Darron Poulsen, General Manager			
SUBMITTED BY:		Latif Laar	i, Business Application	ons Manager	
DATE:		8/20/2020)	10	
SUBJ	JECT:			e Trimax Change Order#9 for the PLC Old Blower Building	
\boxtimes	For Action	\boxtimes	Fiscal Impact	\$0	
	Information Onl	y 🗌	Account Code:		
		\boxtimes	Funds Budgeted	Approved:	

STAFF RECOMMENDATION

It is recommended that the Board of Commissioners approve the Trimax Phase 2 Contract modification for the following:

- Add scope for the replacement of PLC Old Blower Building (PLC BLO) at the cost of \$54,400.00
- Removal of scope to replace PLC Aeration (PLC AER) at the cost of \$99,800.00

PREVIOUS ACTION(S)

July 16, 2020, the Board of Commissioners approved an amendment of Trimax's Programmable Logic Controllers (PLC) replacement project contract to include phase 2 in the amount of \$447,600.00

December 19, 2019, the Board of Commissioners approved a contract for the Programmable Logic Controllers (PLC) Replacement Project Phase 1 to Trimax of \$470,142.00

BACKGROUND INFORMATION

At a special Board meeting on July 27, 2020, the board approved the first amendment to the Gas Collection Agreement and contract with SoCal Biomethane, LLC. This amendment to the gas collection agreement moved VVWRA staff to direct Trimax Systems Inc to conduct an engineering study of the PLC BLO, which is a key component of the amended scope of work being performed by SoCal Biomethane. PLC BLO was originally scheduled to be replaced in a later phase of the PLC project. Due to the critical nature of the SoCal Biomethane project, staff and Trimax agreed that it was appropriate to raise the level of priority to replace PLC BLO to allow for more capacity to handle the new upcoming equipment.

Based on the engineering study performed, Trimax Systems Inc. submitted Change Order Request #9 for the replacement of PLC BLO in the amount of \$54,000 as detailed in Exhibit (1). To remain under the approved budgeted amount of \$447,600, VVWRA staff and Trimax agreed to remove from the approved scope the replacement of PLC AER at the cost of \$99,800 as detailed in Exhibit (2). This change in scope will allow the project to stay under budget.

As dictated by VVWRA's purchasing policy, Board approval of this change order is required to move forward with the desired change. VVWRA staff respectfully requests the Board of Commissioners approve the Trimax Phase 2 Contract modification for the following:

- Add scope for the replacement of PLC Old Blower Building (PLC BLO) at the cost of \$54,400.00
- Removal of scope to replace PLC Aeration (PLC AER) at the cost of \$99,800.00

Attachment(s):

Victor Valley Wastewater Reclamation Authority Change Order Request # 9 Enhanced Installation PLC BLO

Date submitted 6-29-2020

Date Change Order Required 7-20-2020

Summary - To best support VVWRA with the PLC-BLO modifications Trimax would like to offer multiple enhanced installation options.

Current Installation Includes:

- If no changes to the existing plan occur, we will provide the following:
 - o New back panel and two new side panels with all associated control wiring and devices.
 - o Two Racks with equivalent I/O to what is currently in the panel.

As the panel is narrow, we could not easily get two people to work in it simultaneously and the side panels would have to be removed to pull the back panel out.

Down time (where the related systems would need to operate in hand) would be about two days, maybe just over.

Note: All installations and possible upgrades will require some complete shutdowns of the PLC for transfer of programs and communication connections multiple times during the change-over. These communication losses will be as brief as possible but are unavoidable. The down times for these will vary based on the task preformed, but will typically be between 5 minutes and 2 hours and discussed with VVWRA prior to implementation.

Option 1:

Replace the existing CP-1100 next to the existing PLC-BLO control panel with a larger enclosure that can handle all of the new I/O and turn the current PLC panel into a marshalling cabinet with a new back panel and all new terminal blocks.

A wider pad would need to be poured.

The I/O and wiring passing through this enclosure would need to be pulled back (more on this in the difficulties section).

The old CP1100 could be removed and set aside for VVWRA to dispose of.

The new enclosure would be installed and the I/O and wiring passing through the enclosure could be relanded. VVWRA would be responsible for offloading the new enclosure and placing it on the apron of the Blower building with access to the MCC room through the double doors.

Connect the PLC to the network and test control of using the PLC5 as I/O only (this step can be done while the new hardware is being designed and built).

COR-09 Enhanced Installation PLC BLO

CORPORATE OFFICE

8440 Florin Road Sacramento, CA 95828 916.395.8800 https://tescocontrols.com TRINSAX BREA

565 Explorer Street Brea, CA 92821 714.255.8590 www.trimaxsystems.com

Test the controls in steps returning controls to current condition at the end of each testing day (as was done with the Digester 4 & 5 PLC) until all controls have been tested, then leave the ControlLogix processor running the new program with the PLC5 as I/O only.

Start to move I/O from the existing panel to the new control panel 1 module at a time for temporary installation. This will require that the PLC programmer and Operations review what items will be taken down and confirm that the plant is ready to perform this task. The field wires for each I/O module will be taken off the existing termination point untangled from other wires in the cabinet all the way back to the point of entry. Each point of entry will be predesignated with a direction/path for the wires to be run out the panel door and wired to a temporary terminal block. The point of entry for each I/O point will be noted on the drawing for use during the final termination. The other side of the temporary terminal block will be wired through the door of the new enclosure to the new terminal blocks. The process for each I/O module should take about 1 hour depending on the quantity of points used and any ancillary devices that may need to be isolated (in the case of Digital Outputs or Analog Inputs). After each module of field wires is temporarily landed to the new terminal blocks the programmer will enable the module in the ControlLogix PLC to permanently control this I/O. Once all field wires have been routed out the door temporarily to the new terminals the PLC5 will be shut down and the side panels and back panels removed.

A new back panel with rows of terminal blocks and Panduit will be installed in the old PLC enclosure.

The field wire from each entry point will be evaluated to determine the best point in the new marshalling cabinet for termination based on the wire length (shortest wires get highest priority) and a termination plan for the marshalling cabinet will be generated. This plan will be used to wire from the PLC side of the marshalling terminal blocks into the new PLC cabinet near the final point of connection for all I/O.

The field wires will then be moved from the temporary terminal blocks to the points assigned to them in the marshalling cabinet in the previous step. This will again require the programmer and Operations to confirm that the plant is ready to have the individual modules shut down so that the wires can be terminated. Using the entry points identified on the drawing during the temporary connection step the wires for each module will be found prior to shutting down the module for permanent connection. Once shut down the temporary wire to the new PLC terminal will be removed and the wire to the marshalling panel connected at the same time that the field wire is removed from the temporary termination, dressed and landed to the field side of the marshalling panel. Note that field wires will not be shortened during this install but will be laced in the Panduit and extra length coiled in the bottom or side of the enclosure if necessary. Once all field wiring for a module has been moved to the marshalling panel the card will be energized and Operations will be asked to confirm all points are functioning.

When the field wires for all modules have been moved from temporary to permanent terminals, the panel upgrade will be complete and the drawings for the enclosure and marshalling panel will be updated to include all additions and changes from the field install.

Benefits of this option include:

 Limited down time during the changeover process, each module worth of I/O will only be offline while the wires are being moved.

COR-09 Enhanced Installation PLC BLO

Page **2** of **5**

COMPORATE OFFICE

8440 Florin Road Sacramento, CA 95828 916.395.8800 https://tescocontrols.com TRIMAX BREA

565 Explorer Street Brea, CA 92821 714.255.8590 www.trimaxsystems.com

- At the end of each module change the system will be running normally. So extended shifts should be minimized as the system can be left operational each night.
- Cleanest final installation

Difficulties of this option include:

- While individual down time is limited, the process for this is significantly longer. There will be approximately 6 days when the I/O is being transferred.
- The installation of the new control panel will take approximately 3 days where the I/O and wiring that pass through the old CP-1100 enclosure will need to be off-line and/or operated in hand.

The I/O affected will be:

- Sludge Pump #1 Running
- Sludge Pump #2 Running
- Sludge Pump #3 Running
- Sludge Pump #4 Running
- Helical Skimmer 3-4, Remote
- Helical Skimmer 3-4, Running
- Helical Skimmer 3-4, Fail
- Helical Skimmer 1-2, Remote
- Helical Skimmer 1-2, Running
- Helical Skimmer 1-2, Fail
- Radiator 1502, Running
- Radiator 1502, Remote
- ? Diluted Nat. Gas Blower Run? (This is not currently operating and may no longer exist)
- Sludge Pump #1, Run Command
- Sludge Pump #2, Run Command
- Sludge Pump #3, Run Command
- Sludge Pump #4, Run Command
- Helical Skimmer 3-4, Run Command
- Helical Skimmer 1-2, Run Command
- There are also several wires that pass from Relay Panel, RP1 to the field, there functions are currently unknown, but the wire tags are as follows:
- MCP24 (multiple exist, most likely a hot or common in another panel)
- RP1-FC (multiple exist, most likely a hot or common in RP1)
- QL1141
- OA1141
- LSH-1221
- LSH-1251
- ME8202A (analog signal)

COR-09 Enhanced Installation PLC BLO

CORPORATE OFFICE

8440 Florin Road Sacramento, CA 95828 916.395.8800 https://tescocontrols.com TRIMAX BREA

565 Explorer Street Brea, CA 92821 714.255.8590 www.trimaxsystems.com

During the I/O upgrade the wires will need to be run temporarily through the front of both cabinet doors, preventing them from being closed.

Barricades or some manner of preventing inadvertent touching of these systems will be needed, particularly overnight.

With this option Trimax has added additional labor, new enclosure, temporary materials, foundation, and enclosure replacement work.

Option 2:

Replace Back panel and door in CP-1100 with new control circuitry, PLC racks and terminal blocks for AO, Al and DO connections. DI connections will need to remain in the existing cabinet. Turn the existing PLC-BLO cabinet into a hybrid marshalling cabinet (DI points to the PLC modules will only terminate in this cabinet).

The back panel will be replaced with a new back panel containing power distribution, network communications, PLC hardware and termination points for all analog signals and relays for Digital Outputs.

The signals listed in Option 1 above would need to be interrupted during this change over (approx. 4 hrs.)

The new PLC would control the I/O in the existing PLC5 rack as is the case for Option 1.

Cables from the terminals in the new PLC cabinet would be run to near the existing field connections in the current PLC-BLO enclosure.

As similar to the Option 1 the modules would then be replaced 1 by 1 by removing the old terminal blocks and replacing with new and connecting the field wires and wires to the PLC panel to the module at the same time.

This will keep all the existing field wires and Panduit where it is in the panel and prevent Trimax from cleaning up the field wires.

While it is possible to terminate the new cables from the PLC directly to the existing terminal blocks, this is not being offered as it will not allow the proper fusing of the field wires.

Once all the field wires (modules) have been changed to the new PLC the old, abandoned hardware in the old PLC-BLO cabinet will be powered down and removed.

As much cleaning of the cabinet as possible will be done, but the positioning of the field wiring cannot be improved by much.

The door will be replaced on the CP-1100 cabinet and positioned so the hinge is on the opposite side (it currently cannot open more than 75-80 degrees)

Drawings for both panels will be updated.

Benefits of this option:

COR-09 Enhanced Installation PLC BLO

Page **4** of **5**

CORPORATE OFFICE

8440 Florin Road Sacramento, CA 95828 916.395.8800 https://tescocontrols.com TRIMAX BREA

565 Explorer Street Brea, CA 92821 714.255.8590 www.trimaxsystems.com

- Less down time than Option 1 with the benefits of module by module swap provided by Option 1.
- No open panel doors when work not in process.
- No new enclosure needed.

Difficulties/drawbacks of this option:

 Existing field wiring and Panduit will look the same, new terminal blocks will look better, but the field wires will still be a mess.

Cost:

No Change \$ 0
 Option 1 \$ 54,400
 Option 2 \$ 13,700

Lead time estimate:

- Design 3 weeks (high sided)
- Procure 2 to 3 weeks (slightly faster for Option 2 or no change)
- Fabricate and test 2 weeks

Install:

- No Change 2 (long) days down time (all equipment can operate in Hand or Local)
- Option 1 3 days for panel install, 6 days additional for PLC change over
- Option 2 4 days for panel and PLC change over

Financial and Cash Reports

July 2020

Executive Summary of Financial Statements

For the Month Ended July 31, 2020

1. Cash balance at July 31, 2020 is \$10.22 million with reserves required for operations. The agreements with State Water Resources Control Board require we maintain the loan principal and interest payment amount for the following year.

	Cu	irrent Balance
O&M Reserve: 10% of Prior Year Budgeted Operating Expenses	\$	1,484,420
R&R Reserve: 1% of Land Improvements/Plants/Interceptors PY CAFR		2,974,530
Reserve for SRF Payments (P& I) - Operating		2,749,736
Reserve for SRF Payments (P& I) - Capital		2,133,074
Cash Available for Operations and Capital		881,884
Total Cash	\$	10,223,643

- 2. The July 2020 financial statements show a deficit of \$887,984 (a cumulative year-to-date deficit of \$887,984) after \$1.02 million (cumulative \$1.02 million) depreciation expense. The depreciation expense is a part of financial statements but does not affect our cash flow.
- 3. The current month user fee revenue is higher than a budgeted monthly average amount by \$18,492. We did not receive any connection fee revenue during the month of July 2020. The expenses are what the staff processed during the month that may not match corresponding revenues. The staff will record matching expenses at a year-end by accruing incurred costs.

Chieko Keagy, Controller

Kengy

Operations and Maintenance Report July 2020

Victor Valley Wastewater Reclamation Authority
Operations and Maintenance Report
July 2020

TO:

Board of Commissioners

FROM:

Operations & Maintenance Staff

SUBJECT: Operations / Maintenance Report

DATE: Aug 20, 2020

The following information details the operation of the Victor Valley Wastewater Reclamation Authority Facility for June 2020. Included in this report is pertinent information regarding flows, process control information, process sampling, permit requirements, operations activities, and facility maintenance activities.

Pertinent Operational Data

Total Flow to Mojave	186.98 MGD	Effluent to Mojave BOD	<4.30 mg/l		
Avg. Daily Mojave Flow	6.03 MGD	Plant BOD Removal %	>98.58 %		
Total Flow to Perc Ponds	160.08 MGD	Effluent to Mojave TSS	<2.5 mg/l		
Avg. Daily Flow to Perc Ponds	5.16 MGD	Plant TSS Removal %	>99.29 %		
Effluent to Mojave avg. Turbidity	0.32 NTU	Avg. Filter Effluent Turbidity	.51 NTU		
Avg. Primary Sludge Flow	94,928 GPD	Avg. Primary Sludge TS%	2.8 %		
Avg. Primary BOD Removal %	54.16 %	Avg. Primary TSS Removal %	74.04 %		
Avg. 30min Settle-O-Meter	124 ml/l	Avg. Settle-O-Meter Pop Time	>90 min		
Avg. Secondary Turbidity	1.44 NTU	Total ADM/FOG Received	112,114 gal		
Total Digester Gas Production	9,769,132 scf	Total ADM Received	0 gal		
Digester 4 Gas Production	5,219,923 scf	Total FOG Received	112,114 gal		
Digester 5 Gas Production	4,549,209 scf	Avg. Digester VA/A Ratio	.032		

CMMS Work Order Activity

VVWRA KPI Report

2/5/2020 2:23 PM

7/1/2020 - 7/31/2020

KPI	Count	Percent
Planned Work Total	108	
Planned Work Completed	108	100.00%
Planned Work Completed On-Time	105	97.22%
Planned Work Incomplete	0	0 %
Planned Work Completed Late	2	1.85%
Total Work Completed	415	
Reactive Work Completed	87	20.96%
PM Work Completed	290	69.88%

O & M Activities

• Permit Continuous Monitoring Requirements

- o All permit required, continuous monitoring equipment was on-line and working properly during the month.
- o All PH and conductivity probes cleaned and calibrated.
- o All TSS and Turbidity probes were cleaned and calibrated.
- o UVT probe cleaned and calibrated.
- o Monthly intensity probe verification completed.

Permit Violations

o No permit violations.

Sampling

- o All permit required samples for the month were collected and processed.
- o Monthly gas samples collected.

Safety

- o Monthly vehicle safety inspections completed.
- o Monthly gas tech monitor inspections completed.
- o Monthly eyewash safety showers inspected.
- o Monthly SCBA inspections.
- o Hazardous storage area inspection.
- Spill kit inspections.

• Monthly Backup Generator Tests

o Routine testing of the backup generators was completed and showed no issues.

• Essential Equipment Maintenance

- o Aqua Guard pre-treatment screen inspected and serviced.
- o Headwork's conveyor belt lubed and inspected.
- o Grit classifier monthly lubed.
- o Monthly Daft lube PM.
- o Primary clarifier shear pins replaced as needed.
- o Primary sludge pump repack PMs completed.
- o Piller blowers 1 & 6 weekly inspections complete.
- o Service Air compressors inspection and service completed.
- o Waukesha engines inspections completed.
- o Monthly tertiary filters gear box and platform drive wheel service complete.
- o Filter #1 & #2 monthly platform gear box PMs completed.
- o Monthly filter festoon inspection completed.
- o Filter #1 & #2 monthly backwash wasting pumps oil checks complete.
- o DAFT #1 and #2 Air Compressors PM services complete.
- o DAFT monthly lube completed.
- o Monthly UREA refill completed on CHPs #1 & #2.
- o CHP1&2 differential pressure readings taken within normal range, Gas DP pressure collected within normal range.

Operations / Areas of Concern

• Sludge Thickening Operation

- o GBT tank capacity
- o Drying beds reachable with GBT thickened sludge.
- o Treating of filtrate from GBT.
- o Running GBT 7 days a week.

• Primary Treatment

- o Balancing primary sludge flows to the digesters.
- o Continuing to treat GBT filtrate
- o Fine tuning Advanced Primary Treatment with increased WAS from Subregionals
- o Focusing on thickening primary sludge pre digestion.
- o Preparing to take down both digesters in the winter.

• Subregional Facilities

- o Building stability in the process at both Subregional facilities.
- o Final NTU at both subregional facilities
- o Replacing Membranes at HWRP.

• Final Effluent

o Maintaining clean UV channels with shorter staff.

Major Maintenance Activities

• Primary Treatment

- o EQ Basin 1 aerator repairs completed.
- o Grit classifier replacement.
- o Daft 3 ongoing repairs.
- o Primary sludge pump repacks completed.

• Treatment Disposal

- o GBT filtrates drain line relocation.
- o GBT Motor upgrades completed.
- o GBT improvements ongoing.
- o Digester 1-3 upgrades ongoing.

• Secondary Treatment

o Turblex blower 2 ongoing upgrades.

• Power generation

- o CHP 1&2 CPU batteries replaced.
- o CHP 1 starter replacement

Hesperia WRP

o Plant water line repaired.

AVPS Otoe

- o Bioxide metering pump installation completed.
- o Asphalt and concrete sink hole repaired.

Environmental Compliance Department Report

July 2020

VVWRA Environmental Compliance Department Industrial Pretreatment Program

I. Interceptors Operation and Maintenance:

1. Interceptors cleaning & CCTV:

a. South Apple Valley manholes conditions assessment completed

2. Interceptors Inspections:

The following interceptors were visually inspected for signs of damage, vandalism and evidence of sanitary sewer overflows:

- ✓ South Apple Valley & North Apple Valley.
- ✓ Schedule 1, 2, 3 & 4
- ✓ UNE Bypass HDPE pipe
- ✓ Hesperia, I Ave and Santa Fe.
- ✓ CSA 64
- ✓ Adelanto
- ✓ SCLA1

3. Damage and repair summary:

✓ No Damage found during inspections and no repair was needed or performed.

4. Sanitary sewer overflows (SSO) summary:

✓ Date of last reportable SSO: March 12, 2020

5. Interceptors maintenance budget remaining:

✓ The fiscal year 2020-2021 Interceptor sewer maintenance amount remaining for sewer cleaning and inspection services is \$100,000.00

6. Dig Alert Underground tickets processed:

✓ A total of One hundred and Twenty Five (125) USA Tickets were received and processed in July 2020.

7. Flow monitoring Studies:

✓ A flow monitoring study by ADS Environmental is continuing.

II. Industrial pretreatment Activities:

1. New Business Questionnaires and permits applications evaluated:

- ✓ Three (3) New Business Questionnaires were processed in the month of July 2020.
- ✓ One (1) New Business Inspection was conducted in the month of July 2020.

2. New permits issued:

✓ One (1) New permit was issued in the month of July 2020.

3. Permit renewals issued:

✓ Seventeen (17) Class III permit renewals were issued in the month of July 2020.

4. Work Orders:

✓ 31 Work Orders were completed in July 2020

5. Monthly revenues collected, and invoices issued:

✓ Revenues: \$800.00✓ Invoiced: \$4,500.00

III. Industrial Pretreatment Activities (continued)

- 1. Current enforcement actions:
- ✓ No Notice of Violations were issued in July 2020.
- 2. Current active industrial pretreatment permits:
- ✓ The current number of VVWRA's industrial wastewater discharge permits is 429, they are comprised as follows:

1	Class I	Categorical Industrial User
11	Class II	Non-Categorical Significant Industrial User
404	Class III	Non-Significant Industrial User
1	Class IV	Zero Discharge Industrial User
15	Class V	Sanitary Waste Haulers

✓ The permitted establishments include:

16	Automotive Service Facility
11	Bakery
1	Brewery/Winery
20	Car Wash/Truck Wash/Bus Wash
3	Coffee Shop
9	Dry Cleaner
299	FSE
22	Grocery Store
3	Hospital
3	Misc. Food
3	Misc. Industrial
4	Other
1	Photographic
1	Print Shop
1	Prison
3	School/Church
4	Water Retail Store
15	Waste Haulers

[✓] Permitted businesses are distributed among member entities as follows: 164 in Victorville, 123 in Apple Valley, 117 in Hesperia and 1 in Oro Grande.

Safety

STAFF SAFETY TAILGATE TRAINING CONDUCTED

- July 2-preventing back injuries
- July 6--workplace violence policy
- July 13--protecting your eyesight
- July 20--employees safety responsibility
- June 27--forklift safety
- Periodic updates on corona virus and updates to our policy

Safety Events/ Training

- Safety tailgates
- Daily, weekly and monthly plant inspections
- Staff has been assigned online safety courses including electrical safety, traffic control, LOTO and fall protection.
- Various webinars on handling coronavirus in the workplace

Unsafe Conditions Reported/Resolved

Date of last recordable accident/injury: November 18, 2019

Days since last recordable accident/injury: 256 Days

NEXT MONTH'S SCHEDULE OF

STAFF TRAINING/SAFETY EVENTS:

- Safety Tailgates will be conducted weekly online
- Safety Committee meeting
- We are beginning some socially distanced, in-person training. Fire extinguisher training is the first scheduled.

Outreach

New Summer edition of the Purple Pipe newsletter was released in mid July

- Facebook posts.
- Plant tours have been suspended until further notice due to coronavirus crisis.
